TONY STARK

Computer Science & Engineering Student | Aspiring Software Developer

Phone: [Add phone] | Email: [Add professional email] | Location: [City, State]
LinkedIn: [Add URL] | GitHub: [Add URL]

PROFESSIONAL SUMMARY

Computer Science and Engineering student with a foundation in Java, data structures and algorithms, and web application development. Familiar with Spring Boot and React, with project experience spanning student management, music applications, and smart-home detection. Interested in building practical, user-focused software and strengthening full-stack development skills.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering — **CGPA: 8.0**

[College / University Name] — [Graduation Year]

TECHNICAL SKILLS

Programming	Java
Core Areas	Data Structures & Algorithms (DSA)
Frameworks	Spring Boot, React

PROJECTS

Student Management Task

- Describe the project's purpose, key features you implemented, and the technologies used.

Music World App

- Add the features actually implemented, such as music browsing, search, playlists, or playback.

Smart Home Detection System

- Describe the detection approach, devices or sensors used, and the system's response to detected events.

CODING PROFILES

Profile usernames visible in the screenshot: **tony** and **tony_123**. Add the platform names and public profile URLs before sharing.

ADDITIONAL INFORMATION

Add relevant coursework, certifications, internships, achievements, and links to completed projects. The screenshot does not provide contact details, institution, graduation year, or project descriptions.
